SUBSYSTEMS MANUFACTURER TO DEFENCE AND INDUSTRIES

# MILSPEC Cable Systems

DEFENCE G-Wagon

METRO Trains

THALES Bushmaster

We have been servicing Defence and Industries for over 40 years and believe that the quality of our products is one of the key reasons for our success. Our highly skilled staff, who are certified to IPC610 and IPC620 and are experts in their field, will manufacture your cables in an environment governed by AS9100 and ISO9001. Our end-to-end manufacturing capabilities mean that we can manufacture and test your cables in-house, taking the stress out of the supply chain and eliminating the need for multiple sub-contractors.

# MILSPEC Manufacturing

## Capabilities & Equipment

HV cabling & certification: up to and including 50kv  
 Custom made looms and harnesses  
 Gwinstek GPT 9804  
 Fluke 5700A Calibrator  
 Rohde + Schwarz ZVH4

## Standards

IPC610  
 ICP620  
 AS3000  
 AS9100  
 ISO9001

## Testing

AC/DC insulation testing  
 AC/DC leakage testing  
 Continuity testing  
 Earth bonding  
 dB loss attenuation  
 Point to Point  
 Insulation testing

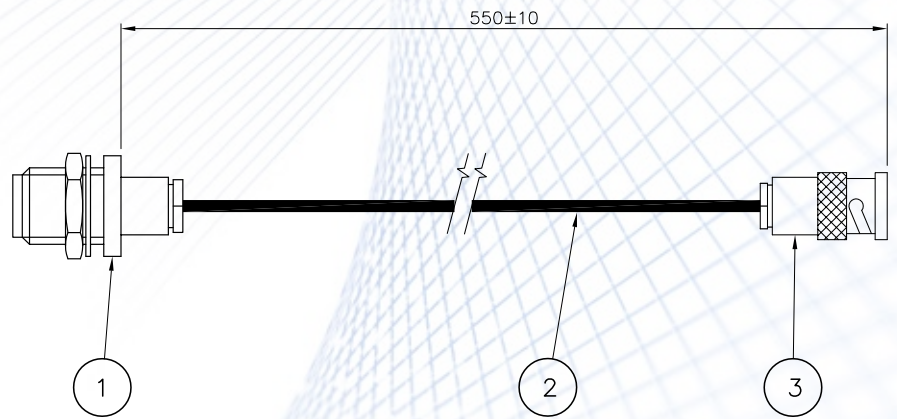

## MILSPEC RF Cables

### Cable Types

RG6  
 RG11  
 RG58  
 RG59  
 RG174  
 RG178  
 RG213  
 RG214  
 LMR195  
 LMR400

### Connectors

BNC  
 TNC  
 SMA  
 SMB  
 SMC  
 UHF  
 FME
